

# DECK PAINT

## *Waterproofing Sealer*

Deck Paint is an all Acrylic Pigmented Floor paint specially designed for use as a waterproofing sealer over exterior and interior floor coatings. Use over pedestrian areas, such as, pool decks, courtyards, and walkways. Deck Paint will show excellent water blushing and block resistance when compared to other similar sealers. Deck Paint can also be used to re-seal existing porous deck surfaces and new concrete or polymer modified concrete surfaces. When used in conjunction with Versa-Pox "W" Series Primer, the Deck Paint will adhere to most deck and floor surfaces, including hard to bond to surfaces like urethane elastomerics.

### Features and Advantages:

- ☑ Water-Resistant
- ☑ Low Odor
- ☑ Single Component
- ☑ Abrasion Resistant
- ☑ Flexible
- ☑ Long Pot Life
- ☑ Water Clean Up

### Apply Over:

- ✓ Concrete
- ✓ Existing Deck Coatings
- ✓ Brick
- ✓ Metal
- ✓ Masonry
- ✓ Wood
- ✓ Pool decks
- ✓ Sidewalks
- ✓ Spalled or Eroded Concrete

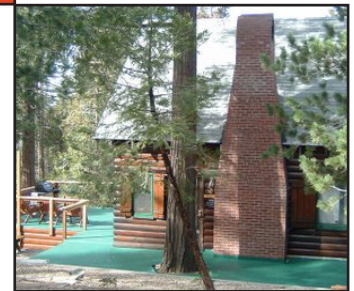

Applied over a textured walkway

Applied over a knockdown pool deck

Applied over a mezzanine area

Applied over a cabin deck
